General information

The commercial size is sheets of 100 x 150 cm, 1 or 1.5 mm thick.

No hazards have been reported in normal use, handling or storage. In all cases, the material should be stored protected from sunlight, in well ventilated, dry premises, since moisture may impair the material's stability.

For disposal, always comply with the local and national regulations in force.

Firefighting measures:

all types of commercially available extinguishers are recommended; do not inhale the fumes produced by chemical decomposition, as they may be strongly irritant.
