Safety Data Sheet no. 13  
Revision no. 3  
Revision date 30.03.19

---

## SAFETY DATA SHEET

### 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY

Chemical name: N.A.  
(IUPAC name)

Identification number:  
- CAS number: N.A.  
- EEC number: N.A.

Common name: **POLYMERISED LATEX FOAM SLAB**  
Company product code: **LL5G**  
Type of product: **Polymer**

Distributor:  
**Corazza S.r.l.**  
Via S.Pertini, 37  
40062 Molinella (BO) Italy  
Tel. +39-051/881877 – Fax +39-051/6902146

### 2. HAZARD IDENTIFICATION

#### - Classification of the substance or mixture

Classification in accordance with Regulation (EC) no.1272/2008: On the basis of the requirements of the CLP regulation, the product is not classified.

#### - Label elements

Labelling in accordance with Regulation (EC) no. 1272/2008 not applicable  
Danger symbols not applicable  
Warnings not applicable  
Hazard statements not applicable

#### - Other hazards

Results of PBT and vPvB assessment

PBT: This substance/mixture does not meet the PBT criteria of the REACH regulation, Annex XIII.  
vPvB: This substance/mixture does not meet the vPvB criteria of the REACH regulation, Annex XIII.

### 3. COMPOSITION/INFORMATION ABOUT INGREDIENTS

#### - Substances

CAS number 9003-55-8 (SBR)

#### - Mixtures

Description: Aqueous dispersion of polymer.

---

## SAFETY DATA SHEET

Hazardous substances: not applicable  
Further information: The text of the hazard warnings referred to will be found in chapter 16

### 4. FIRST AID MEASURES

#### - Description of first aid measures

General information: Remove contaminated clothing immediately.

Inhalation: Move the patient to a well ventilated location, seek medical advice in case of symptoms. If the patient is unconscious, try to keep him/her in a stable position on one side when transporting.

Skin contact: Remove contaminated clothing immediately.  
Wash immediately with soap and water and rinse thoroughly.

Contact with eyes: Rinse the eyes immediately with abundant running water for at least 15 minutes, opening the eyelids fully to wash out the substance.  
Consult an eye specialist in all cases

Ingestion: The product is strongly alkaline and may damage the stomach. Do not induce vomiting, do not administer anything by mouth and call a doctor at immediately. Rinse the mouth with water but do not administer anything to be swallowed.

#### - Most important symptoms and effects, both acute and delayed

No further information is available.

#### - Indication of any immediate medical attention and special treatment needed

No further information is available.

### 5. FIREFIGHTING MEASURES

#### - Extinguishing media

Suitable extinguishing media: Nebulised water, foam, chemical powder, carbon dioxide.

Unsuitable extinguishing media: N.A.

#### - Special hazards arising from the substance or mixture

If dried and involved in a fire, the product burns with a sooty flame and emits fumes consisting of water, carbon dioxide, carbon monoxide and other combustion products.

---

## SAFETY DATA SHEET

Overheating/pyrolysis releases vapours consisting of monomers, low-DP polymers and any products of their oxidation.

### - Advice for firefighters

Specific protective equipment:

Use suitable personal protective equipment (breathing apparatus, helmet, protective goggles, overalls, gloves and flame retardant boots).

Other information

Cool containers close to the flames with sprayed water.

## 6. ACCIDENTAL RELEASE MEASURES

### - Personal precautions, protective equipment and emergency procedures

High slipping hazard due to product leaks and spills.

### - Environmental precautions

Stop the leak if this is not a hazardous procedure.

Prevent seepage into drains/surface water/groundwater.

### - Methods and material for containment and cleaning up:

Contain spills with absorbent material such as sand or soil; collect spilt latex in containers, or absorb small spills with inert material and dispose of it as instructed in section 13.

Clean the affected area thoroughly.

No hazardous substances are emitted.

For information regarding safe handling, see section 7.

For information regarding personal protective equipment, see chapter 8.

For information regarding the disposal of contaminated material, see section 13.

### Reference to other sections

## 7. HANDLING AND STORAGE

### - Precautions for safe handling

Comply with normal personal hygiene measures and in particular do not smoke, eat or drink while handling; use personal protective equipment (see section 8). Re-seal opened containers.

---

## SAFETY DATA SHEET

### - Information for protection against fire and explosion

No particular measures are required.

### - General occupational health and safety recommendations

The workplace must have suitable systems for ventilation or for extraction of any gases/vapours formed during handling.

### - Conditions for safe storage, including any incompatibilities

Storage:

Requirements for warehouses and containers:

No particular requirements must be met.

Further information about storage conditions

Store the mixture indoors in intact packaging, protected from sunlight and well away from heat sources.

Protect from freezing.

Ensure that storage premises are suitably ventilated. Clean the storage tanks thoroughly at regular intervals to prevent the development of micro-organisms.

Protect from frost.

### - Specific end uses

No further information is available.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Further information regarding the structure of technical systems:

No further information, see point 7.

### - Control parameters

Ingredients the limit values of which must be kept under control in workplaces:

The product does not contain significant quantities of substances the limit values of which must be kept under control in workplaces.

Further information:

The information provided is based on the lists valid as of the compilation date.

### - Exposure controls

General occupational health and safety regulations:

Comply with the usual safety measures when handling chemicals.

During processing when hot, especially at abnormally high temperatures, traces of monomers

## SAFETY DATA SHEET

Appropriate engineering controls	and other volatile substances may be produced. The workplace must have suitable systems for ventilation or for extraction of any gases/vapours formed during handling.
Personal protective measures	Remove contaminated clothing immediately. Wash your hands before breaks or after work. Thorough ventilation/extraction in workplaces
Respiratory protection	Personal protective equipment varies depending on the possible exposure and hazard level of the working conditions. Not necessary when airborne particles or vapours are not present. When present, wear masks with filter for organic vapours and/or airborne particles.
Skin protection	
Hand protection:	Protective gloves Glove material must be chosen on the basis of passage times and permeation and degradation rates.
Eye/face protection:	protective goggles face protection
Other:	Standard work clothing.
Thermal hazards	No information is available.
Environmental exposure controls	Take all necessary technical precautions to prevent the spread of the product into the surrounding environment.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### - Information on basic physical and chemical properties

General information	:	
Appearance:	:	
Form	:	Liquid
Colour	:	White
Odour	:	Characteristic
Odour Threshold	:	Undefined
pH values at 20 °C	:	10.3 - 11
Change in state	:	
Melting point/range	:	>0 °C
Boiling point/range	:	100 °C
Flash point	:	Not applicable

## SAFETY DATA SHEET

Flammability (solid, gas)	:	Not applicable
Ignition temperature	:	> 300 °C
Decomposition temperature	:	Undefined
Auto-ignition	:	Product is not self-igniting
Explosion hazard	:	Product is not explosive
Vapour pressure at 20 °C	:	23 hPa
Density at 20 °C	:	0.98 g/cm <sup>3</sup>
Vapour density	:	undefined
Solubility in/Mixability with water	:	Completely mixable
Viscosity:		
Dynamic	:	Undefined
Solvent content:		
Organic solvents	:	0.0%
Water	:	50.0%
Solid content	:	52-68 %

- **Other information**

No further information is available.

### 10. STABILITY AND REACTIVITY

- **Reactivity**

The substance/mixture does not present additional hazards relating to reactivity apart from those described below.

- **Chemical stability**

- **Thermal decomposition**

The product does not decompose if handled and stored in accordance with the regulations. Comply with the recommended processing temperatures to avoid the formation of harmful gases or vapours

- **Possibility of hazardous reactions**

No hazardous reactions are known.

- **Conditions to avoid**

No further information is available

- **Incompatible materials**

No further information is available

- **Hazardous decomposition products**

There are no known hazardous decomposition products

### 11. TOXICOLOGICAL INFORMATION

Acute toxicity:

## SAFETY DATA SHEET

Skin irritation/corrosion:

Sensitisation:

Additional toxicological data:

Acute effects (acute toxicity, irritation and corrosiveness);

CMR (carcinogenic, mutagenic and reprotoxic) effects:

Repeated contact may cause dermatitis

There are no known sensitising effects

The product does not offer any specific risks when transformed in accordance with the correct processing procedures. The product is not subject to a classification obligation under the calculation methods contained in the latest valid version of the Community general directive on the classification of preparations.

Skin, eyes irritation.

No such effects are reported in the literature

## 12. ECOLOGICAL INFORMATION

### - Toxicity

Aquatic toxicity:

### - Persistence and degradability

### - Bioaccumulative potential

### - Mobility in soil

Additional ecological information:

Further information:

No further information is available

The preparation, basically a high molecular weight polymer, not considered eco-toxic, in aqueous dispersion. Residual water must be treated in accordance with the requirements of section 13.

The polymer part of the product is not biodegradable.

It does not accumulate in organisms.

No further information is available.

Washing large quantities into drains or watercourses may raise the pH value.

A high pH value is harmful to aquatic organisms. Dilution to the use concentration reduces the pH value considerably, so after use of the product, any drainage water which reaches drains is only mildly hazardous for the water

Do not discharge into groundwater, watercourses or drains undiluted or in large quantities.

### - Results of PBT and vPvB assessment

PBT:

This substance/mixture does not meet the PBT criteria of the REACH regulation, Annex XIII.

vPvB:

This substance/mixture does not meet the vPvB criteria of the REACH regulation, Annex XIII.

Safety Data Sheet no. 13  
Revision no. 3  
Revision date 30.03.19

---

## SAFETY DATA SHEET

- **Other adverse effects**

No further information is available.

### 13. DISPOSAL CONSIDERATIONS

- **Waste treatment methods**

Advice:

When handling residues, the same safety principles as for the product as supplied apply.

Coagulate suspended particles with aluminium sulphate or calcium chloride. Decant and neutralise contaminated water before transfer to the waste treatment plant.

Incineration should be carried out in approved condition, preferably with energy recovery and with plants which scrub flue gases prior to emission into the atmosphere.

Surpluses or residues from foreseeable use must be handled with the precautions and any personal protective equipment referred to in sections 7 and 8.

Soiled packaging:

Advice:

Disposal in accordance with local government regulations.

Recommended detergent:

Water, with added detergents if necessary

---

## SAFETY DATA SHEET

### 14. TRANSPORT INFORMATION

- <b>UN number</b>	
ADR, ADN, IMDG, IATA	Not applicable
- <b>UN proper shipping name</b>	
ADR, ADN, IMDG, IATA	Not applicable
- <b>Transport hazard categories</b>	
ADR, ADN, IMDG, IATA	
Class	Not applicable
- <b>Packaging group</b>	
ADR, IMDG, IATA	Not applicable
- <b>Environmental hazards</b>	
Marine pollutant	No
- <b>Special precautions for users</b>	
- <b>Transport in bulk according to annex II of MARPOL 73/78 and the IBC code</b>	Not applicable
Additional transport information:	
IATA	
MARPOL	ANNEX II ; Z
	Ship type: 3
UN "Model Regulation " technical name:	Latex: Styrene-Butadiene rubber

### 15. REGULATORY INFORMATION

- <b>Safety, health and environmental regulations/legislation specific for the substance or mixture</b>	
Labelling in accordance with Regulation (EC) no. 1272/2008:	GHS label elements
National instructions:	Italian implementation of EU Directives referred to below Annex XXXVIII of Legislative Decree 81/2008 as amended.
EU regulations	Directive 2000/60/EC and subsequent amendments (water)
- <b>Chemical safety assessment:</b>	Assessment not required

## SAFETY DATA SHEET

**The data and information in this safety data sheet are based on the best knowledge available as of the compilation date.**

**Neither the producer nor the dealer shall be held responsible, legally or morally, for losses or direct, accidental and/or consequential damage arising from misuse of or the inability to use the product. Before using it, the user must in all cases assess whether the product is suitable for the purpose for which he intends to use it, and will accept all the relative risks and responsibilities.**
